

DESCRIPTION

The LEMORELE P300 is a professional wireless video transmission system designed for video presentations and collaborations that need high-quality, real-time video feeds, providing up to 1080P video quality with a 164ft range and low latency of 0.05 seconds.

It supports 5GHz high-speed WiFi for stable transmission, ensuring reliable performance in small to medium-sized conference rooms, and is compatible with all HDMI-equipped devices, making it highly versatile and easy to integrate into any AV setup.

APPLICATION DIAGRAM

SPECIFICATIONS

Transmitter	
Model	P300 - TX
Material	ABS
Ports	1*TYPE-C INPUT , 1*TYPE-C,
Color	White
Power	5V/2A
Resolution	1080P 60Hz
WiFi protocol	802.11 b/a/g/n/ac
Video Coding Format	H.264
Bandwidth	20 MHz(Broadcast: 40 MHz)
Operating Frequency	5 GHz Frequency Band: 5.150- 5.250 GHz 5.250- 5.350 GHz 5.470- 5.725 GHz 5.725 - 5.850 GHz
Range	164 FT/50 Meters
Transmission Latency	50ms

Receiver	
Model	P300 - RX
Material	ABS
Ports	1*HDMI OUTPUT , 1*TYPE-C,
Color	White
Power	5V/2A
Resolution	1080P 60Hz
WiFi protocol	802.11 b/a/g/n/ac
Video Coding Format	H.264
Bandwidth	20 MHz(Broadcast: 40 MHz)
Operating Frequency	5 GHz Frequency Band: 5.150- 5.250 GHz 5.250- 5.350 GHz 5.470- 5.725 GHz 5.725 - 5.850 GHz
Range	164 FT/50 Meters
Transmission Latency	50ms

P300

Wireless Video Transmitter and Receiver

 **164Ft (50m)
Los Range**

 **1080P@60Hz
Transmission**

The LEMORELE P300 is a professional wireless video transmission system designed for video presentations and collaborations that require high-quality real-time video feeds, providing up to 1080P video quality with a 164ft range, low latency of 0.05 seconds, and compatibility with HDMI inputs/outputs.

- ▶ Video and audio streams reach up to 164ft (50m), with a transmission latency of only 0.08 seconds.
- ▶ Supports video resolutions up to 1080P@60Hz.
- ▶ Seamless auto frequency hopping.
- ▶ Plug and play.
